

## IN THE CLAIMS

I claim:

1. A chemical composition comprising asafetida, ajwain seed, vidanga, cumin seeds, fenugreek, triphala, fennel seed, and turmeric.
- 5 2. The chemical composition of claim 1 wherein the composition contains approximately 5 milligrams of asafetida.
3. The chemical composition of claim 1 wherein the composition contains approximately 100 milligrams of ajwain seed.
4. The chemical composition of claim 1 wherein the composition contains  
10 approximately 50 milligrams of vidanga.
5. The chemical composition of claim 1 wherein the composition contains approximately 20 milligrams of cumin seeds.
6. The chemical composition of claim 1 wherein the composition contains approximately 20 milligrams of fenugreek.
- 15 7. The chemical composition of claim 1 wherein the composition contains approximately 100 milligrams of triphala.
8. The chemical composition of claim 1 wherein the composition contains approximately 180 milligrams of fennel seed.
9. The chemical composition of claim 1 wherein the composition contains  
20 approximately 25 milligrams of turmeric.
10. A chemical composition comprising comprising approximately 5 milligrams of asafetida, approximately 100 milligrams of ajwain seed, approximately 50 milligrams of vidanga, approximately 20 milligrams of cumin seeds, approximately 20

milligrams of fenugreek, approximately 100 milligrams of triphala, approximately 180 milligrams of fennel seed, and approximately 25 milligrams of turmeric.

11. A method of relieving headache, blood constipation, tapeworm, hemorrhoid, constipation and stomach acidity symptoms comprising orally administering  
5 a composition containing asafetida, ajwain seed, vidanga, cumin seeds, fenugreek, triphala, fennel seed, and turmeric.

12. The method of claim 1 wherein the composition contains approximately 5 milligrams of asafetida.

13. The method of claim 1 wherein the composition contains approximately  
10 100 milligrams of ajwain seed.

14. The method of claim 1 wherein the composition contains approximately 50 milligrams of vidanga.

15. The method of claim 1 wherein the composition contains approximately 20 milligrams of cumin seeds.

16. The method of claim 1 wherein the composition contains approximately  
15 20 milligrams of fenugreek.

17. The method of claim 1 wherein the composition contains approximately 100 milligrams of triphala.

18. The method of claim 1 wherein the composition contains approximately  
20 180 milligrams of fennel seed.

19. The method of claim 1 wherein the composition contains approximately 25 milligrams of turmeric.

20. A method of relieving symptoms associated with headaches, blood constipation, tapeworm, hemorrhoids, constipation, and stomach acidity comprising orally administering a composition containing approximately 5 milligrams of asafetida, approximately 100 milligrams of ajwain seed, approximately 50 milligrams of vidanga, 5 approximately 20 milligrams of cumin seeds, approximately 20 milligrams of fenugreek, approximately 100 milligrams of triphala, approximately 180 milligrams of fennel seed, and approximately 25 milligrams of turmeric.
